

**Estimate & Authorization to Provide Care**  
*(Continued)*

➤ **CONCERNING ADMINISTRATION OF GENERAL ANESTHESIA:**

Initial read  I have been advised of the nature and risks of anesthesia and of optional pre-anesthetic screening tests, i.e., pre-op bloodwork, and the use of an intravenous catheter. An **Intravenous Catheter (@ \$25.00)** ensures a readily available route for drug administration in case problems arise during anesthesia. A catheter is of potential value in nearly all anesthetized patients, but especially for extended surgical procedures and geriatric patients.

➤ **AUTHORIZATION TO PROVIDE CARE, ESTIMATE AND TERMS FOR PROCEDURE:**

The estimate (*formal estimate attached/provided*) only approximates the cost of this visit. We will not go above 20% of your estimate without written approval; you will not be responsible for any estimated charges unless they were actually performed.

I have reviewed and hereby authorize Cats Exclusive Spay and Neuter Clinic to perform said procedure(s), therefore, assume responsibility for all charges incurred for the care of my pet, and that they are to be paid at the time of release of my pet. **I am aware that general anesthesia may be required for this procedure, and am aware of its risks and of the risks of the entire procedure with no warranty or guarantee given relative to the outcome.** A deposit is recommended to leave your pet in our care. Be assured that the health of your pet is our highest concern and we will do everything possible to maintain that health.

➤ **MISCELLANEOUS for BROWARD COUNTY CLIENTS who received a Rabies Vaccine at this visit:**

Please check  if you wish to purchase Rabies Tag at this time.

CAT - Altered: \$20.      Not Altered: \$35.

DOG - Altered: \$30.      Not Altered: \$60.
